

KIMPTON  
**LOS MONTEROS**  
MARBELLA

## INTERIOR DESIGN

Equipo Creativo has worked, bringing to life the iconic atmosphere of Marbella's golden era of the 1970s to the present day without ever departing from the usual warm, friendly and comfortable atmosphere that Kimpton has brought to the highest heights in every project. The hotel's 195 rooms include 60 suites, many with large terraces overlooking the sea, all designed by Cristina Carulla's interior design studio. At the heart of the Mediterranean experience, they used natural lighting, as well as contrasting the natural and organic atmosphere of the common areas with prints or touches of colour.

## RESTAURANTS & BARS

The culinary spaces work around the hotel's different atmospheres, from the mixology of the *Lobby Bar* to the relaxed Mediterranean concept of the *Pool Bar*, through the Californian inspired *Rooftop* and ending with the largest *Restaurant* which adapts its mood to each moment of the day.

## SPA

The SPA offers 5 treatment rooms, a separate area for beauty treatments, an indoor pool, sauna, Turkish bath, hammam and footbath. In addition, our own gym and wellness studio.

## MEETING & EVENT SPACES

The hotel offers various spaces for social gatherings and events:

*Main Ballroom:* 372 sqm - 350 people, divisible into 3 sections with daylight.

*4 Breakout Rooms:* Host 20-40 people each, with daylight.

*Rooftop:* Ideal for events, weddings, and parties with a Californian vibe, accommodates 280 people with stunning Mediterranean views..

*La Cabane:* Iconic space for dinners and private events, accommodates up to 400 people.
